

APPLY

Congratulations on taking the first step towards a Defence career!

- If you've already registered, [log in here](#).
- If not, please complete the simple registration process.

This creates your unique profile and it helps you manage the application process. We can also send you career news and updates.

Step One: Choose a password

Once you have selected a password, we will send you a confirmation email with your Defence Career user name.

Step Two: Create a profile

Complete the form and we'll create a unique page for you on the Defence Force website. If you're not applying straightaway, it's a place where we can keep you updated on opportunities and events you might be interested in. If you are applying, your unique page will guide you through the application steps and help you keep track with where you are in the process.

Step Three: Apply

When you are ready to apply, just log into your profile page and go from there. It is quite detailed, but stick with it, because the results are worth it.

Before you begin, take a look at this checklist to make sure you have everything you're need.
